

Notes:

The **Average Page Load time** is of 448ms, which is excellent given [Google's recommendation for page load time](#) to be under 3 seconds.

The **Apdex score** reflecting user front and back-end satisfaction rating came to 100%.

The **First Contentful Paint (FCP)** metric which measures the time from when the page starts loading to when the page's content is rendered on the screen, also came out good at 100%.

There were 4 JavaScript errors which occurred on the localhost while working through a feature, all of which have been resolved.

This application was tested on Google Chrome and MS. Edge.
